

GITHUB SETUP

GitHub website **Direct link:** [GitHub Website](https://github.com)

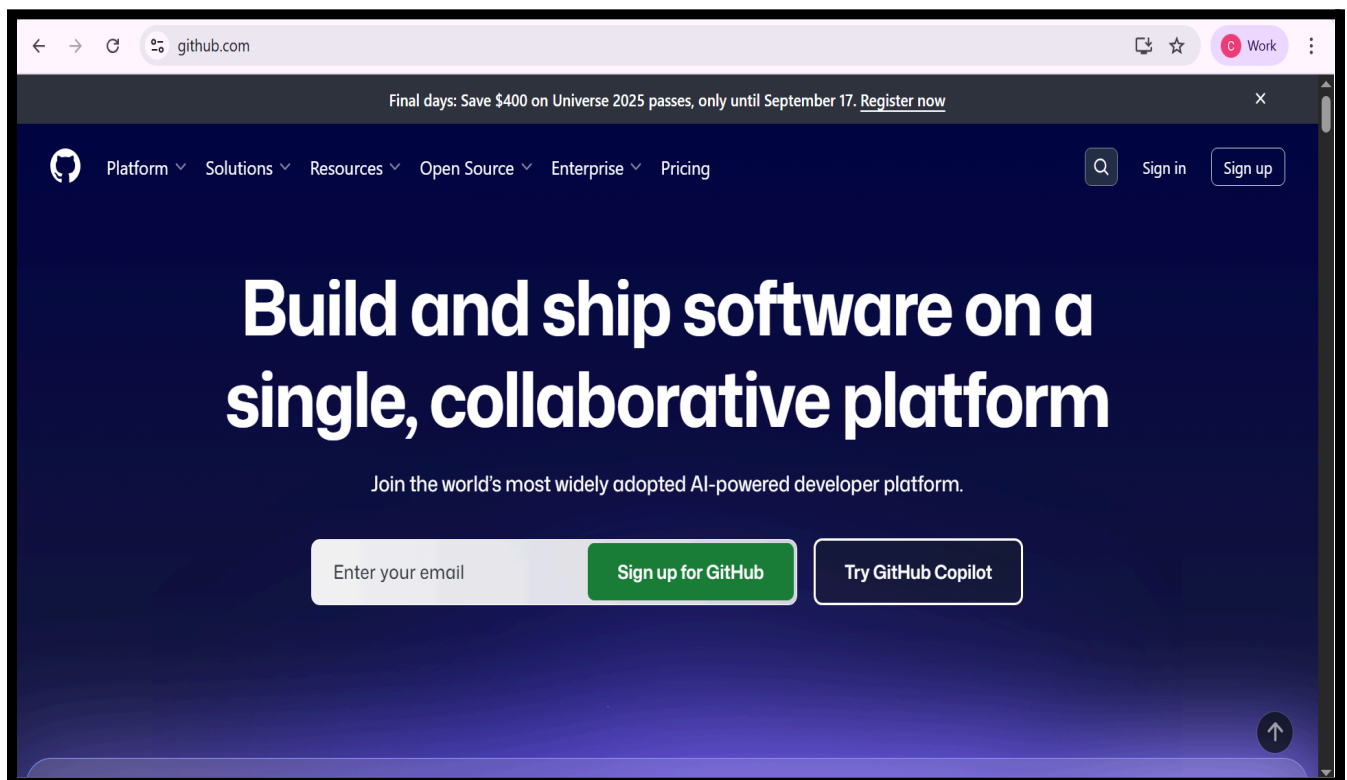

Step 1: Open the GitHub Website

Go to the official GitHub website in your web browser or use the **Direct link** given above.

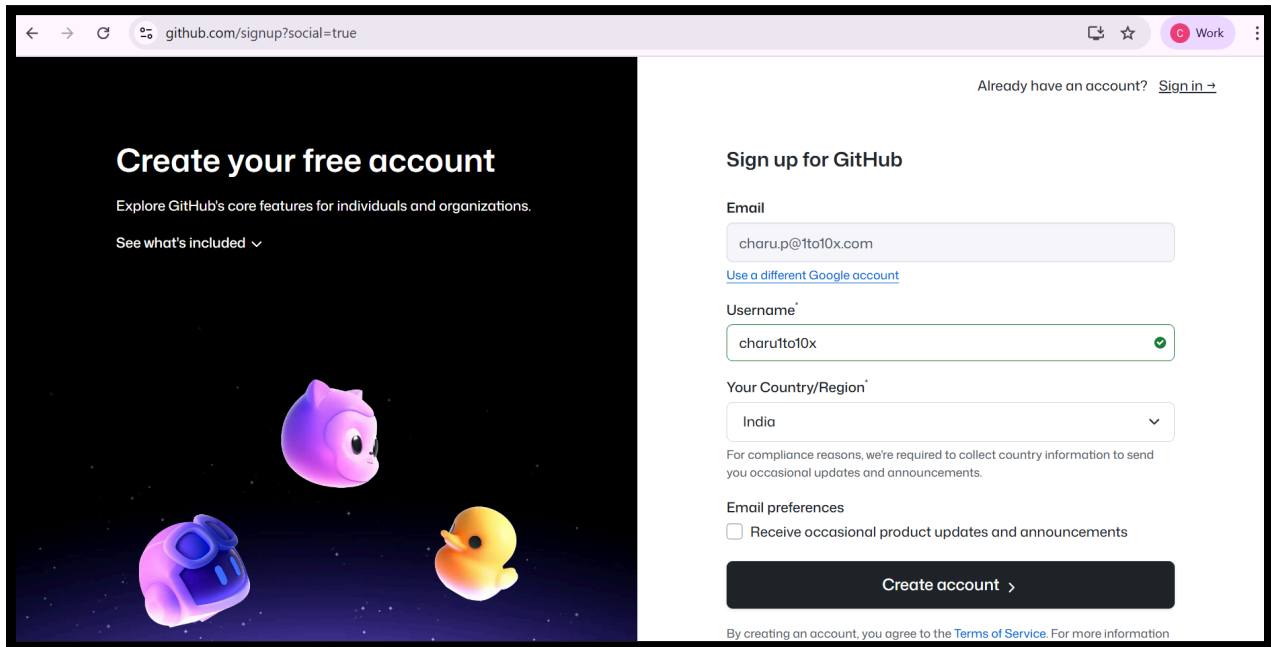

Step 2: Create an Account

- Click the "Sign up" button located in the top-right corner of the homepage.
- Navigate to the GitHub website. Click "**Sign up**" and provide your email, a strong password, and a unique username.
- Complete the verification process to proceed.

Step 3: Enter Your Credentials

You'll be prompted to enter your information. Create a unique username, provide a valid email address, and set a strong password. You may also be asked to solve a simple puzzle to verify you are not a robot.

The screenshot shows the GitHub sign-up page. On the left, a dark panel with the text "Create your free account" and "Explore GitHub's core features for individuals and organizations." Below this is a link "See what's included" with a dropdown arrow. The background of this panel features three colorful, stylized characters (a purple pig-like creature, a blue robot-like creature, and a yellow duck-like creature) floating in space. On the right, the "Sign up for GitHub" form is displayed. It includes fields for "Email" (charu.p@1to10x.com), "Username" (charu1to10x), and "Your Country/Region" (India). Below these fields is a checkbox for "Email preferences" with the text "Receive occasional product updates and announcements". A "Create account" button is at the bottom of the form. At the top right of the form, there is a link "Already have an account? Sign in". At the bottom of the form, there is a small text: "By creating an account, you agree to the Terms of Service. For more information".
